

Credit for Learning Information

From our conversation about Credit for Learning (April, 2007), the statute that people are trying to find is under Graduation requirements; course credits (120B.024 from Minnesota Statutes 2005. It doesn't strictly talk about it, but gives the power to the local district to determine whether students have mastered the subject matter.

We have also been looking at the MSBA/MASA Model Policy 620 to revise our district policy.
